Technical data

Parameters of kitchen with stove ZOSIA

Heating surface	m ²	1,0
Rated thermal input	kW	10
A- wysokość pieco kuchni	mm	875
B- szerokość pieco kuchni	mm	370
C- szerokość blatu	mm	465
D- długość blatu	mm	710
E- długość pieco kuchni	mm	656
F- długość całkowita [od komina do klamki]	mm	895
G- height from the center of the chimney flue	mm	685
H- height from the lower edge of the chimney flue	mm	610
I- height from the center of the return	mm	235
J- height of the boiler feet	mm	100
K- chamber height	mm	580
L- chamber length	mm	300
M- width chamber	mm	235
Dimensions of the bulldozing opening	mm	235x195
Water capacity	L	35
Cross section of the chimney flue	mm	150
Boiler weight	kg	196
Scope of heated area*	m ²	100

Certified boiler steel (P265GH) with the thickness of 6 mm

4 year warranty for the leakproofness of the exchanger

Removable grille made of cast iron

Operation: summer/ winter

Possibility to adjust the combustion by means of the draught regulator

Boiler has the highly efficient grille with the water flow
